

Dr Chris Rumball

MBChB, PhD, MPhil, DipOccMed

Dr Chris Rumball is a Registrar in Occupational & Environmental Medicine and is a company doctor for Solid Energy and Meridian Energy. He also provides support for many companies and providers in the areas of complex injury/illness management and rehabilitation, health monitoring, and pre-employment medicals, as well as specialising in implementation of Occupational Health IT systems. Dr Rumball holds an ACC Clinical Review of Fitness for Work contract.

Accepting referrals for rehabilitation and injury management, and Occupational Physician Early Intervention (OPEI) assessments.

Dr David Hartshorn

FAFOEM

Dr David Hartshorn is an Occupational Physician based in Wellington who joins us regularly in Christchurch for Specialist Clinics. He has extensive experience in injury assessment and rehabilitation, both from an ACC perspective and also as part of industry based on-site programs. He is also experienced in providing independent advice to insurers and employers regarding the issues of rehabilitation and work fitness.

Accepting referrals for Medical Case Reviews, Gradual Process claims, and VIMA/IMAs (with provision for cover of travel expenses from Wellington to Christchurch).

Dr Monica Ford

MBChB

Dr Monica Ford has a background in public health medicine, and training in aviation medicine. She currently works at Christchurch Engine Centre and as Medical Review Officer for Virgin Australia among other projects, and provides injury management consultations.

Accepting referrals for pilot medicals, fitness for work, rehabilitation and injury management, and Occupational Physician Early Intervention (OPEI) assessments.

Dr Sara Souter

FAFOEM DAvMed

Dr Sara Souter is an Occupational Physician with a strong background in company occupational health from within industry. Her subspecialty interests in aviation medicine, alcohol and drug programmes for industry and managing employees with psychological health issues. She is a qualified Medical Review Officer, and has developed and presents our management seminar on Managing Employees with Psychological Health Issues.

Accepting referrals for file reviews and can provide email and phone advice to companies as required on specific matters.

Dr Mark Floyd

FAFOEM, FFOM (Ire), DOM, FRNZCGP

Dr Mark Floyd is currently on a work sabbatical in the Northern Hemisphere but maintains an active engagement in Australasian Occupational & Environmental Medicine. Mark has involvement in a number of industries including Rail, Maritime, Ports, Mining, Manufacturing, Regional Council, Conservation and Fire Service. Mark is the previous Departmental Medical Practitioner for the Department of Labour Canterbury West Coast region. He has particular interests in workplace stress, respiratory health monitoring, the issues associated with older workers and rehabilitation from injury and illness.

Accepting referrals for file reviews and can provide email or phone advice on specific matters.

Our Team

Dr Tim Rumball

FAFOEM, DAvMed

Dr Tim Rumball is the Occupational Physician for Meridian Energy. He has previously worked for the Royal New Zealand Navy, Pacific Steel (part of Fletcher Steel), Sanitarium Health Food Company, Auckland District Health Board, Waitemata District Health Board, Canterbury District Health Board and Air New Zealand. He is presently on sabbatical in Australia where he is working with a number of large employers including mining companies.

Is available to provide email or phone advice on specific matters.

Dr James Foulds

MBChB, FRANZCP

Dr James Foulds is a Consultant Psychiatrist who has worked with the Australis Medical team since 2010, and has a particular interest in occupational and aviation psychiatry, alcohol disorders and general adult psychiatry. James has helped to develop, and co-presents, our management seminar 'Managing Employees with Psychological Health Issues.' James also has a Clinical Senior Lecturer position at the University of Otago Christchurch where he is a convener of undergraduate teaching in Addiction Medicine.

Gina Gilbreath

Programme Coordinator

Gina is our office manager and program administrator of our Drug and Alcohol Management Program services. In this role she provides professional and independent oversight of Drug and Alcohol Testing including test scheduling through to referral of results to the Medical Review Officers.

Georgina Bayliss

Registered Nurse

Georgina is our Occupational Health Nurse. She has worked in the mining industry and is experienced in performing health monitoring tests. She also implements our 'Lifestyle and Cardiovascular Risk Assessment' wellness program.
